MANAGEMENT DISCUSSION AND ANALYSIS REPORT

1. INDUSTRY STRUCTURE & DEVELOPMENT

The Indian economy, after remaining somewhat subdued over the previous year on account of the twin policy measures of Demonetization & GST, is beginning to show signs of revival and the stock markets, especially the benchmark SENSEX & NIFTY are scaling new life-time highs.

Historically, Indians have perceived gold as a safe haven and it continues to remain a preferred investment.

The recent economic outlook for India looks quite positive in the wake of favourable fiscal and monetary reform measures initiated by the policy-makers and an uptick in spending on infrastructure projects.

The company is into trading in different types of commodities, agricultural products, metals, derivatives, etc. The focus of the management is conducting its business through transparency by following a model of good governance. All trading activities during the year were executed as per the prevailing regulatory norms.

2. OPPORTUNITIES, THREATS, RISKS AND CONCERNS

The Company has always been committed towards increasing shareholder's value and has remained cautious and vigilant about the changes in the global scenario which affect the operating environment of the primary business of the company. In today's complex and rapidly-changing business environment, almost every business decision requires executives and managers to balance risk and reward. Globalization, with increasing integration of markets, newer and more complex products and transactions and an increasingly stringent regulatory framework has exposed organisations to newer and complicated risks. Increase in significant growth rate and momentum in economy has also created competitive threats to the Company by way of existing players as well as new entrants, however, the company is making a concerted effort to grab all the relevant opportunities before itself to enhance performance. The promoters of the Company have rich experience in commodity trading since the past few years and have demonstrated competence to analyse the current situation and minimise the risks involved, if any, in trading in commodities. As a result, today's operating environment demands a rigorous and integrated approach to risk management. We strongly advocate timely and effective risk management for the continued success of our business.

3. SEGMENT WISE OR PRODUCT-WISE PERFORMANCE

The Company is currently engaged in the trading agri and metal commodities. Consistent efforts have been made to increase the profit of the company during the financial year 2017-2018. The Company's revenue figures for financial year 2017-2018 show healthy growth as compared to the previous financial year 2016-2017. The Company is focusing efforts to achieve its business objectives in the most efficient manner.

4. OUTLOOK

The outlook for the commodities sector in the short, medium and long term will be largely dictated by domestic consumption levels and also the ongoing trade war between the world's two largest economies, US & China, which is having a huge impact and is emerging as a big determining factor in deciding the relations between the developed and the emerging economies. The focus of the Company in the next financial year will be continuous delivery in progressive mode and achieving higher levels of performance in all spheres of operations. Adopting of cutting edge technology for taking advantages of various markets of the economy. The Company is favorably poised to strengthen its position in the current business and will try to grab new opportunities beneficial for the Company as well as try to overcome all the impediments blocking the performance and growth prospects of the Company. The promoters of the Company have rich experience in commodity broking and their expertise would be channelized for generating better business opportunities for the Company. The Company is confident that the goodwill of the promoters will bring more trading activities.

5. INTERNAL CONTROL SYSTEMS AND THEIR ADEQUACY

The Company has a robust system of accounting and administrative controls supported by an internal audit system with an adequate system of internal checks and controls to ensure safety and proper recording of all assets of the Company and also their legitimate and authorised utilization. The Internal Auditor of the Company reviews all the control measures on a periodic basis and recommends improvements, wherever deemed appropriate, and reports directly to the Audit Committee of the Board. The Audit Committee regularly reviews the audit findings. Based on their recommendations, the Company has implemented a number of control measures both in operational and accounting related areas, apart from the usual security related measures. The internal controls are designed to ensure that the financial and other records are reliable for preparing financial statements and other data and for maintaining the accountability of the assets. Internal Control and Audit is an important procedure and the Audit Committee of the Company has been empowered by the Board to review the adequacy of internal financial controls. Thus, the audit committee periodically reviews all matters relating to the functioning of the internal control systems.

6. FINANCIAL PERFORMANCE

The Company has substantial growth opportunities for the future and is making considerable efforts to achieve its business objectives in an efficient manner even under volatile and rapidly-changing market conditions. The Company concluded yet another year in its business operations

The Profit before Tax as per the audited financial results aggregated Rs. 14,29,964/- as against Rs. 25,20,594/- in the previous year and the Profit After Tax aggregated Rs. 11,00,128/- as against Rs. 12,39,524/-.

“Annexure B” to Independent Auditors’ Report referred to in paragraph 2(f) under the heading “Report on other legal and regulatory requirements” of our report of even date.

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the Internal Financial Control over financial reporting of ABans Enterprises Limited (Formerly known as Matru Smriti Traders Limited (“the company”) as of 31st March, 2018 in conjunction with our audit of the financial statements of the Company for the year then ended.

Management Responsibility for the Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor’s Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, considering nature of business, size of operations and organizational structure of the entity, the Company has, in

all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March, 2018, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI.
